WHAT BEGAN IN THE 19TH CENTURY AS AN AGRICULTURAL IMPLEMENT MANUFACTURER HAS GROWN INTO A 21ST CENTURY EQUIPMENT POWERHOUSE - MUSTANG COMPACT EQUIPMENT.

Known in the early years as the Owatonna Manufacturing Company, Mustang was among the first to make what is known today as the skid steer loader. Since that time, Mustang has combined old-school experience with innovative processes to offer one of the broadest lines of compact equipment available today.

MUSTANG. THE ORIGINAL WORKHORSE.

Building its first skid steer loader in 1965, Mustang was a true pioneer in the equipment world. Almost fifty years later, Mustang continues the tradition with one of the most complete lines of skid steer loaders on the market today.

With ten models ranging from 1,050 lbs. (476 kg) to an industry-leading 4,000 lbs. (1814 kg) of operating capacity, Mustang offers both radial- and vertical-lift models.
LOADING OR LIFTING - WE HAVE THE MACHINE FOR YOU

RADIAL LIFT
Offers enhanced performance in excavating, grading and digging below grade applications. Due to the radial lift path, the maximum reach is greater at the middle of the lift height.

VERTICAL LIFT
Providing more reach at full lift height is optimal for applications that require loading and stacking at high heights. By keeping the load closer to the machine, lift capacities are increased over radial-lift models.

SINGLE PIN DESIGN
Provides superior durability in loading and pushing applications.

DURABLE BUILD
Up to 4.5” (124 mm) width lift arm construction delivers superior strength and rigidity.

SINGLE PLANE LIFT ARM
Design features large diameter pins aligned in a single plane for best-in-class vertical and lateral strength and rigidity.

EXCELLENT FORWARD REACH
The Mustang radial lift skid steer loaders provide excellent forward reach at the middle of the lift path. This provides excellent performance for loading flatbed trucks, backfilling or dumping over a wall.

TRUE VERTICAL
The 4000V has a true vertical lift path. The 2700V NXT2 and 3300V NXT2 have a near vertical path.

X-TYPE
Upper-rear channel support welded to the top and between the load arms provides added rigidity without obstructing rear visibility.
COMPACT POWERHOUSE: ALL-NEW MODEL 1050R

1,050 lbs. [481 kg] RATED OPERATING CAPACITY

TIER IV YANMAR ENGINE
34.2 hp (kW)
81 ft-lbs. (109 Nm) of torque

SELF LEVEL
This option keeps the bucket level throughout the raise/lift cycle.

LOW OVERALL HEIGHT
Gain access to low clearance sites and buildings with an overall height of 70.3" (1784 mm) on the model 1050R.

LIFT HEIGHT 108" [2731 mm]

IDEAL FOR SMALL, CRAMPED WORK SPACES

COUNTERWEIGHT/BUMPER
An optional counterweight on the 1050R boosts the maximum capacity to 1,668 lbs. (756 kg) and adds additional rear protection.

EASY TRANSPORT
With an operating weight of only 4,200 lbs. (1905 kg), the 1050R can be easily towed on a trailer behind a standard truck.

OPERATOR STATION
Open Canopy
Open Canopy with Door
Enclosed Cab with Heat

NARROW WIDTH
A narrow wheel offset option provides a machine width of only 48" (1232 mm) allowing entry through a backyard gate.
**POWER and PERFORMANCE**

**MID-SIZED MUSCLE: MODELS 1350R, 1500R & 1650R**

**TIER IV YANMAR DIESEL ENGINE** Utilizing automatic regeneration and no fuel additives, these machines provide clean emissions with little to no input from the operator.

LEVEL II FOPS
Robust operator station design provides added protection for the operator.

CAB-FORWARD DESIGN
All-new cab design is mounted forward on the chassis and the seat is mounted higher for class-leading visibility to the front, rear, sides and cutting edge.

RADIAL-PISTON DRIVE MOTORS
Maintenance-free, radial-piston drive motors provide high start-up torque and maximum ground speed up to 12.5 mph [20 km/hr] for quick acceleration.

LOW-PROFILE LIFT ARM
A high-strength, low-profile design maximizes operator visibility to the front and side for added performance and safety.

LONG WHEELBASE
A long wheelbase provides a smoother ride and a lower center of gravity for added stability.

VERTICAL-LIFT BOOM
High-strength, low-profile design increases operator visibility and lifts the load in a nearly vertical path on the 2700V NXT2 and 3300V NXT2.

LEVEL II FOPS
Robust operator station design provides added protection for the operator.

CAB-FORWARD DESIGN
All-new cab design is mounted forward on the chassis and the seat is mounted higher for exceptional visibility to the front, rear, sides and cutting edge.

LONG WHEELBASE
A long wheelbase provides a smoother ride and a lower center of gravity for added stability.

2700V NXT2 | 49.5" [1257 mm]
| 3300V NXT2 | 49.5" [1257 mm]
| 4000V      | 54.6" [1387 mm]

FUEL ECONOMY
Equipped with an electronic engine control and electronic hand and foot throttles*, these units can be operated at partial throttle for lower sounds levels and reduced fuel consumption.

SELECTABLE SELF-LEVELING
Hydraulic self-leveling with on-off control for the operator is available as an option on models 2700V NXT2 & 3300V NXT2.

“SOFT-SHIFT” DRIVE
Standard two-speed “soft-shift” drive provides smooth transitions between low/high speeds for increased operator comfort. Models 2700V NXT2 & 3300V NXT2

LIFT HEIGHT

WORLD’S MOST POWERFUL SKID STEER LOADER

VERTICAL-LIFT BOOM
High-strength, low-profile design increases operator visibility and lifts the load in a true vertical path on the model 4000V.

SMOOTH OPERATION
Hydraglide™ ride control system allows the lift arm to “float” when transporting loads, minimizing loss of material, and increased operator comfort.
**OPERATOR STATION COMFORT FEATURES**

**POWER PORT**
Standard 12-volt accessory plug keeps your electronics charged all day.

**CLIMATE CONTROL**
Heat is standard on all cab models. Air conditioning is an option on select models.

**RADIO OPTION**
Factory installed, this radio option customizes your cab.

**REAR VIEW CAMERA**
Increase visibility to the rear of the machine with a rear view camera.

**PRESSURIZED CAB**
An optional pressurized, sealed cab enclosure provides a cleaner, quieter operating environment.

**EASY ENTRY AND EXIT**
Large entry area allows for easy access to the operator station.

**VISIBILITY**
Wide opening in the front of the machine and large screen windows provide high visibility for increased safety and precise placement.

**GET IN CONTROL**

**COMFORT and SAFETY**

**CHOOSE YOUR RIDE**
A high-back, five-way adjustable seat comes as standard. Optional air-ride suspension seat or mechanical suspension seat provide enhanced comfort.

**DIGITAL COLOR DISPLAY**
This information center shows real time fuel consumption, engine RPM, machine hours, engine diagnostic codes, warning indicators and much more. Models 1350R, 1500R & 1650R

**OPERATOR PRESENCE**
The machine safety system allows operation only when the user is on the seat and the restraint bar is lowered into position.

**POWER PORT**
Standard 12-volt accessory plug keeps your electronics charged all day.

**CLIMATE CONTROL**
Heat is standard on all cab models. Air conditioning is an option on select models.

**RADIO OPTION**
Factory installed, this radio option customizes your cab.

**REAR VIEW CAMERA**
Increase visibility to the rear of the machine with a rear view camera.

**PRESSURIZED CAB**
An optional pressurized, sealed cab enclosure provides a cleaner, quieter operating environment.

**EASY ENTRY AND EXIT**
Large entry area allows for easy access to the operator station.

**VISIBILITY**
Wide opening in the front of the machine and large screen windows provide high visibility for increased safety and precise placement.

**R Series and Vertical-Lift Model Cab Shown**

**RADIAL & VERTICAL**

**SOUND REDUCTION MATERIAL**
Suppresses outside noise for a quieter operator environment.

**MULTIPLE AIR VENTS**
Six adjustable vents throughout the cab provide optimal temperature control.

**ADJUSTABLE SEAT**
Optional 3" (76 mm) seatbelt available.

**PADDED, ADJUSTABLE ARMRESTS**
2" (51 mm) seatbelt.

**ADJUSTABLE CONTROL TOWERS**
Extend and retract to provide personalized comfort.

**CUP HOLDER**

**EASY ENTRY AND EXIT**
Large entry area allows for easy access to the operator station.

**VISIBILITY**
Wide opening in the front of the machine and large screen windows provide high visibility for increased safety and precise placement.

**OPERATOR PRESENCE**
The machine safety system allows operation only when the user is on the seat and the restraint bar is lowered into position.

**PRESSURIZED CAB**
An optional pressurized, sealed cab enclosure provides a cleaner, quieter operating environment.

**EASY ENTRY AND EXIT**
Large entry area allows for easy access to the operator station.

**VISIBILITY**
Wide opening in the front of the machine and large screen windows provide high visibility for increased safety and precise placement.

**POWER PORT**
Standard 12-volt accessory plug keeps your electronics charged all day.

**CLIMATE CONTROL**
Heat is standard on all cab models. Air conditioning is an option on select models.

**RADIO OPTION**
Factory installed, this radio option customizes your cab.

**REAR VIEW CAMERA**
Increase visibility to the rear of the machine with a rear view camera.

**PRESSURIZED CAB**
An optional pressurized, sealed cab enclosure provides a cleaner, quieter operating environment.

**EASY ENTRY AND EXIT**
Large entry area allows for easy access to the operator station.

**VISIBILITY**
Wide opening in the front of the machine and large screen windows provide high visibility for increased safety and precise placement.
LESS DOWN TIME PUTS MONEY IN YOUR POCKET

SWING-OUT COOLER
Provides improved access to engine bay area. Available on select models.

SWING-OUT REAR DOOR
Rear door easily opens on hinges on right side, allowing full access to filters and fluid reservoirs for servicing and maintenance.

LARGE ENGINE COVER
Cover is hinged and positioned by gas-springs to assist lifting and holding in place, and allows for easy return to closed position.

SAFETY RESTRAINT
Innovative restraint allows for safe and secure holding of the lift arm and cab while in the maintenance position.

TILTABLE ROPS/FOPS ASSEMBLY
With gas-spring assist for easy internal access to the pumps, hydraulic valve bank and drive motors.

FRONT CHASSIS CLEANOUT
Easy cleanout of foot area inside ROPS/FOPS.

EXCELLENT VIEWS FROM ALL SIDES FOR SAFETY AND PRECISE OPERATION
Excellent visibility to the front, sides and rear of the machine allow for precise placement of loads and reduced jobsite incidents. A high-mounted seat provides an excellent vantage point to the attachment and cutting edge.
HYDRAULICS & ATTACHMENTS

SELECTABLE SELF-LEVELING HYDRAULIC LIFT ACTION
keeps the bucket level throughout the raise/lift cycle. Available on select models.

ELECTRONIC ATTACHMENT CONTROL OPTION
This factory-installed add-on allows for control of all attachments.

PERFORMANCE and VERSATILITY

ALL-TACH®
All models feature the easy-to-use All-Tach® (universal-style) attachment mounting system compatible with most allied attachments.

SINGLE LEVER DESIGN
for simplicity and strength.

HEAVY DUTY MOUNTING PLATE design for increased rigidity over tube style.

POWER-A-TACH®
Hydraulic Power-A-Tach® all-weather system option allows users to quickly install and remove attachments. An operator leaves the seat only to connect auxiliary hydraulics. This system is compatible with most allied attachments.

To learn more about EDGE® Skid Steer Loader attachments, visit edgeattach.com

With a wide variety of EDGE® attachments available, Mustang Skid Steer Loaders are easily transformed to meet your customers’ needs.
Mustang offers a variety of accessories and upgrades that can be easily added to new or used equipment. These can help enhance an existing unit or customize one for a particular job. Whether you are looking to add a counterweight, boost your hydraulics, or enclose a cab with heat and air conditioning, Mustang has the tools you need to craft your ideal ride.

**PROTECT YOUR INVESTMENT**

Trust the experts. Make the right choice.

You expect year-to-year productivity from your Mustang equipment. That’s why your trained and accredited Mustang dealer offers you the experience and skill necessary to maximize your equipment’s performance. From routine maintenance to XPRT Genuine Parts to XPRT Protection Plan, your Mustang dealer is a partner you can count on to keep your equipment running smoothly.

Eliminate unexpected repair costs and take better care of your Mustang equipment with the XPRT Protection Plan™. It ensures repairs will be made quickly with manufacturer-approved XPRT genuine parts by trained mechanics. If you’re interested in saving money over the long haul, the XPRT Protection Plan™ is an investment you should consider.

Features include:
- Affordable options available to meet your needs
- Select either powertrain component or full machine coverage for the right kind of protection for your equipment
- You decide the number of years and hours of coverage needed
- Enroll in the Plan on the day you purchase eligible equipment, or any time within six months or 500 hours from equipment registration

**ROUTINE Maintenance**

Eliminate unexpected repair costs and take better care of your Mustang equipment with the XPRT Protection Plan™. It ensures repairs will be made quickly with manufacturer-approved XPRT genuine parts by trained mechanics. If you’re interested in saving money over the long haul, the XPRT Protection Plan™ is an investment you should consider.

Features include:
- Affordable options available to meet your needs
- Select either powertrain component or full machine coverage for the right kind of protection for your equipment
- You decide the number of years and hours of coverage needed
- Enroll in the Plan on the day you purchase eligible equipment, or any time within six months or 500 hours from equipment registration

- **Vertical-Lift**: 4000V

---

**Note:** Actual weight and specifications may vary. Always consult the manufacturer's manual for exact dimensions and specifications.
### FEATURES

**ORIGINAL WORKHORSE**

Mustang authorized dealers offer a full line of compact equipment, backed up by exceptional sales, service and parts experience.

For more information on Mustang equipment, visit our website: mustangmfg.com

Mustang reminds users to read and understand the operator’s manual before operating any equipment. Also, make sure all safety devices and shields are in place and functioning properly.

Mustang reserves the right to add improvements or make changes in specifications at any time without notice or obligation.
